### **EXAMINER'S AMENDMENT**

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 8/21/08, Roger Hahn requested an extension of time for TWO MONTH(S) and authorized the Director to charge Deposit Account No. 59-3913 the required fee of \$230.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1-24 have been cancelled in favor of the following new claims:

25. A method of stimulating or modulating an immune response, comprising administering to a subject a polypeptide shown in SEQ ID NO:7, 9, or 18.

26. The method of claim 25, wherein the polypeptide is administered as a mixture with an antigen.

27. The method of claim 25, wherein the polypeptide is administered separately from an antigen administered at the same time.

28. The method of claim 25, wherein the polypeptide is administered without an antigen.

29. The method of claim 25, wherein the immune response prevents or treats an infectious condition in the subject.

30. The method of claim 28, wherein the immune response prevents or treats an infectious condition in the subject.

31. The method of claim 25, wherein the immune response prevents a virus disease in the subject.

32. The method of claim 28, wherein the immune response prevents a virus disease in the subject.

33. The method of claim 31 or 32, wherein the disease is zosteriform herpes.

34. The method of claim 29 or 30, wherein the infectious condition is caused by *Plasmodium yoellii*.

In the specification, on page 10, Table 1 has been amended as follows:

Table 1

TCBL Peptides to be used SBIR Section D

Peptide	Sequence	Ref
G	NGQEEKAGVVSTGLIGGG <u>(SEQ ID NO:2)</u>	Zimmerman et al. 1996
derG	DGQEEKAGVVSTGLIGGG <u>(SEQ ID NO:20)</u>	Zimmerman et al. 2001
J	<del>DLLKNGERIEKVEGGG</del>	<del>Zimmerman et al. 1996</del>

The following is an examiner's statement of reasons for allowance:

The declaration filed 7/3/08 presents additional evidence for prevention of additional infectious disease conditions, caused by the alphavirus SAAR86 or the protozoan parasite Leishmania, using the peptide CEL-1000 (which is disclosed in the specification as a form of DerG). On reconsideration, there is sufficient evidence that the claimed peptides are effective as immunostimulants/immunomodulators in general, and effective against a variety of infectious conditions including two unrelated viruses and two unrelated protozoal parasites. However, since the generic term "parasites" also includes very different macroparasites such as tapeworms, nematodes, liver flukes, etc, the evidence on the record is insufficient to convince one skilled in the art that the peptides are effective against the whole genus of "parasites."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mary E. Mosher, Ph.D. whose telephone number is 571-272-0906. The examiner can normally be reached on varying dates and times; please leave a message.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bruce Campell can be reached on 571-272-0974. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
